WORKSHEET FOR REPORTING & UPDATING ROSE INFORMATION

4/18/2006

This worksheet provides the headings and available entries needed for HMF editors to create and change entries for roses in the HMF database. Not all entries need be provided. Enter what you can. You and others can follow up with additional information.

If you feel your entries are questionable or you don't agree with an existing entry, bring it to everyone's attention on the HRF Forum or so note in the notes section or in Questions & Comments (**Q&C**). When you do so, indicate your USDA (or comparable) zone and any special local climate issues that may affect your entries.

If you take all or part of your information from a book, catalog or other reference, please indicate the source, author, date and page number. This will be placed under the **References** tab.

Major Headings are bold and in caps. Sub headings are bold.

To use, make a copy of this file and select the entries to be posted by identifying them by placing parenthesis around them. EG. (Alba). As an alternative, make a separate file with the desired entries copied from this file. If you need to qualify your choices from lists of characteristics, do so in "**NOTES.**" If the qualifier is extensive, place a pointer in "**NOTES.**" And enter the qualifier in "**Q&C.**"

NAME

If there is more than one name to be entered, list each separately with the following details:

List the name. Include double quotes for study names. Single quotes are not needed for breeder assigned, registered or synonym names.

Is this name registered by the ARS/IRAR as the primary name?

Is this an "aka" not registered as the primary name, code name or an additional study name?

Is this the original study name or a test name/number used by the breeder prior to release?

Is this name the ARS exhibition name (AEN)?

CLASS

Select all that apply from this list:

Agatha/Agathe	Hybrid Bracteata	Hybrid Noisette	Micro-Miniature
Alba	Hybrid Californica	Hybrid Nutkana	Mini-Flora
Ayrshire	Hybrid Canina	Hybrid Pendulina	Miniature
Bermuda Rose	Hybrid China	Hybrid Perpetual	Miniature, Cl.
Bourbon	Hybrid China, Cl.	Hybrid Perpetual,	Miscellaneous OGR
Bourbon, Cl.	Hybrid Clynopylla	Cl.	Moss
Boursault	Hybrid Eglanteria	Hybrid Persica	Moss - Modern
Centifolia	Hybrid Foetida	Hybrid Polyantha	Noisette
China / Bengale	Hybrid Gallica	Hybrid Ptericantha	Patio
China, Cl.	Hybrid Gigantea	Hybrid Roxburghii	Patio Rose, Cl.
Climber	Hybrid Helena	Hybrid Rubiginosa	Pernetiana
Damask	Hybrid Hugonis	Hybrid Rugosa	Pernetiana, Cl.
Damask Perpetual	Hybrid Hulthemia	Hybrid	Polyantha
English Rose	persica	Sempervirens	Polyantha, Cl.
[David Austin]	Hybrid Kordesii	Hybrid Setigera	Portland
Floribunda / Cluster	Hybrid Laevigata	Hybrid	Rambler
Flowered	Hybrid Lutea	Spinosissima	Shrub
Floribunda, Cl.	Hybrid Macounii	Hybrid Suffulta	Shrub, Modern
Florists Rose	Hybrid Macrantha	Hybrid Tea / Large-	Species / Wild
Found Rose	Hybrid Macrophylla	Flowered	Tea
Gallica / Provins	Hybrid Moschata	Hybrid Tea, Cl.	Tea Noisette
Grandiflora	Hybrid Moyesii	Hybrid Villosa	Tea, Cl.
Grandiflora, Cl.	Hybrid	Hybrid Wichurana	Tree Rose
Hybrid Arvensis	Multibracteata	Lambertiana	Turbinata
Hybrid Banksia	Hybrid Multiflora	Large-Flowered	Understock
Hybrid Blanda	Hybrid Musk	Climber	Wichurana
Hybrid Bourbon	Hybrid Nitida	Lawrenciana

AVAILABILITY

Select one:

Commercially available
Breeding stock only

Pending registration
Existence unknown

AKA

Be careful to only use names you are sure are synonyms. If the synonym is questioned, identify it in Notes. Do not use for the registered name. Enter the registered name under "Name" above.

List the alternate or code name. Include double quotes for study names. Single quotes are not needed for breeder assigned, registered or synonym names.

Is this a study name for a found or mystery rose that is not the earliest or most accepted?

Is this a name used for a rose during the test phase?

Is this name the ARS exhibition name (AEN)?

BREEDING

If Known, List:

Breeder(s) with date in Parenthesis:
Introducer(s) with date in Parenthesis:
Discover(s) with date in Parenthesis:

BREEDER'S NOTES

(Enter text):

BLOOM

Bloom Color Instruction.

The ARS color code is always required.

If "Color Description - English" text is entered, any Bloom Color Selection(s) will be ignored, otherwise they will be shown. "French" text will always be shown, if entered.

Bloom Color [ARS] Selection Select one:

*None of the below (Use if you do not wish to leave an entry)

Apricot & apricot blend [ARS ab]
orange & orange blend [ARS ob]
Orange-pink & orange-pink blend [ARS op]
Orange-red & orange-red blend [ARS or]
mauve & mauve blend [ARS m]
pink blend [ARS pb]
light pink [ARS lp]
medium pink [ARS mp]

deep pink [ARS dp]
red blend [ARS rb]
medium red [ARS mr]
dark red [ARS dr]
russet [ARS r]
yellow blend [ARS yb]
Light yellow [ARS ly]
medium yellow [ARS my]
Deep yellow [ARS dy]
white, near white & white blend [w]

Bloom Color Selection. Select all that apply, unless you are providing an English text description:

amber	Mottled (hand painted)	Scarlet
apricot orange	Often spotted	Scarlet-crimson
Apricot-pink	Orange (coral)	Scarlet-red
bi-color	Orange and yellow	Sometimes striped white
Blue	Orange edge	Striped
buff	Orange-scarlet	Tan
Carmine	Orange-white	Vermilion
Carmine-pink	Orchid Pink	Vermilion-red
Copper	Pink	Violet-pink
Coral-pink	pink center	Violet-red
Coral-red	pink edge	White (chartreuse)
Coral-salmon	pink reverse	White (creamy)
Cream	pink-red	White (pinkish)
Crimson	pink-white	White and pink
Crimson-purple	Pink-yellow	White center
Crimson-red	purple	White edge
Crimson-scarlet	purple-red	white eye
Currant-red	Red	white reverse
Darker center	red and white	White with pink center
Darker reverse	Red center	White with pink edge
Fuchsia	red edge	White with red edge
Geranium-red	red reverse	White with yellow center
gold	Red-purple	White-yellow
Golden-yellow	Red-yellow	yellow (butter)
Green	Rose-pink	yellow and pink
Lavender	Rose-red	yellow and red
Lemon-yellow	Ruby-red	yellow center
light red	Salmon	yellow edge
lighter center	Salmon-orange	Yellow reverse
Lighter reverse	Salmon-pink	Yellow-orange
magenta	Salmon-yellow	Yellow-white

Color Description.

English: Enter up to 250 character description.

French: Enter up to 250 character description.

Bloom Form Selection.

Select one:

*None of the below (Use if you do not wish to leave an entry)

small	medium-large
small to medium	large
medium	very large
medium to large	

Select one:

*None of the below (Use if you do not wish to leave an entry)

Single (4-8)	very double
single to semi-double	full (26-40)
semi-double(9-16)	moderately full
semi-double to double	very full (41+)
double (17-25)	

Select all that apply:

borne mostly	decorative hips	globular	in large clusters
solitary	double	high-centered	in small clusters
button-eye	exhibition	high-centered to	old-fashioned
cluster-flowered	flat	cupped	pinpoint centers
cupped	flat to cupped	high-centered to flat	pompon
cupped-to-flat	formal	hybrid Tea	quartered

reflexed
Rosette

rounded
ruffled

scalloped
Semi-globular

spiral centers
urn-shaped

Bloom Cycle Selection.

Select one:

*None of the below (Use if you do not wish to leave an entry)

Sparse
moderate
prolific

Select one:

*None of the below (Use if you do not wish to leave an entry)

Continuous (perpetual) bloom throughout the season
Blooms in flushes throughout the season
Spring/Summer flush with scattered later bloom
Occasional repeat later in the season
Once-blooming spring or summer

Bloom Size. List typical size in inches or centimeters:

Petal Count. List minimum and maximum (<256) number of petals:

Bud Selection.

Select one:

*None of the below (Use if you do not wish to leave an entry)

small
medium
large

Select all that apply:

crested sepals
large sepals
decorative
elongated

fragrant
pointed
ovoid
mossed

rounded
wide oval

Fragrance.

Select if applicable:

opinions vary about fragrance

Select one:

*None of the below (Use if you do not wish to leave an entry)

no
none-to-mild
mild
mild-to-strong
moderate
Strong

Select all that apply:

Anise
Apple
Apple & rose
Apple & Spice
Appleblossom

Apricot
Carnation
Centifolia fragrance
Cinnamon
Citrus

PLANT CHARACTERISTICS

FOLIAGE SELECTION

Select one:

*None of the below (Use if you do not wish to leave an entry)

small
medium
large

Select one:

*None of the below (Use if you do not wish to leave an entry)

matte
glossy
semi-glossy

Select all that apply:

dense
fringed stipules
fragrant
holly-like
leathery

Select one:

*None of the below (Use if you do not wish to leave an entry)

Light green
Medium green
Dark green

HABIT SECTION

Habit.

Select one:

*None of the below (Use if you do not wish to leave an entry)

short
medium
tall

Select all that apply:

arching	dense	rounded	upright
bushy	lax	spreading	well-branched
climbing	mounded	thornless (or	
compact	narrow	almost)	

Plant Height. Give minimum and maximum in inches, feet, cm, dm or meters:

Plant Width. Give minimum and maximum in inches, feet, cm, dm or meters:

Uses Selection. Select all that apply:

beds and borders climber container rose cut flower

exhibition
garden
ground cover

hanging basket
hedge
landscape

pillar
rock garden
shrub

specimen
understock

Disease Selection.

Select if applies:

Blooms tend to ball in wet weather

Select one:

*None of the below (Use if you do not wish to leave an entry)

susceptible to disease

average disease resistance

very (above average) disease resistant

Select one:

*None of the below (Use if you do not wish to leave an entry)

susceptible to mildew (see FAQ)

mildew resistance

very mildew resistant

Select one:

*None of the below (Use if you do not wish to leave an entry)

susceptible to blackspot (see FAQ)

blackspot resistance

very blackspot resistant

Select one:

*None of the below (Use if you do not wish to leave an entry)

susceptible to rust (see FAQ)

rust resistance

very rust resistant

GROWING

Growing Notes Selection.

Select all that apply:

Hardy

Very hardy

Vigorous

Very vigorous

Select all that apply:

A good subject for pegging

Armed with thorns

blooms have a "weak neck"

Can be grown as a shrub

Can be trained as a climber

Does not do well in warmer climates

drought resistant

flowers drop off cleanly

Heat tolerant

Plant in partial shade for best color

Prefers cool sites.

Prefers dry climates

Prefers full sun

Prefers warmer sites

Requires full sun for best color

Shade Tolerant

suitable for a pillar

Will benefit from winter protection in colder climates

Care Selection. Select all that apply:

- **Requires winter protection** if temperatures drop below freezing
- **Spring Pruning:** Remove old canes and dead or diseased wood and cut back canes that cross. In warmer climates, cut back the remaining canes by about one-third. In colder areas, you'll probably find you'll have to prune a little more than that
- Can be grown as a climber in mild climates
- Can be grown in the ground or in a container (container requires winter protection)
- Can be pruned to maintain a shorter habit
- Cut back one-half every other year
- Do not dead head
- Do not prune
- Do not spray
- Feed this rose well
- Needs little care -- it's relatively disease-free and quite hardy
- Prune dead wood
- Prune lightly or not at all

- Prune lightly until this rose gets established (about two years), then prune it back by about a third.
- Prune right after flowering is finished
- Remove old canes and dead or diseased wood.
- Remove spent blooms only
- Remove spent blooms to encourage re-bloom
- Remove unproductive wood every third year or so
- Requires good cultivation if it is to perform its best
- Resist the urge to prune this rose too heavily -- it doesn't like it!
- This rose blooms on old wood

USDA Zone. Select:

Coldest - "Unknown" or 1 - 11

Warmest - "And Higher" or 1 - 11

PARENTAGE

Disputed Parentage. Where authoritative sources have reported parentage that you don't agree with, report changes here only if supported by unassailable evidence, otherwise note the alternate parentage in "Questions & Comments."

Seed Parent. Report using one of these alternatives:

- 1) Parent's name only.
- 2) Parent's name with that parent's parentage using standard notation.
- 3) An "unnamed seedling."
- 4) Breeder has "not disclosed" the parent.
- 5) Parent is "unknown." Use for adventitious (chance) seedlings.
- 6) Remove current incorrect parentage.

Pollen Parent. Report using one of these alternatives:

- 1) Parent's name only.
- 2) Parent's name with that parent's parentage using standard notation.
- 3) An "unnamed seedling."
- 4) Breeder has "not disclosed" the parent.
- 5) Parent is "unknown." Use for open pollinated and adventitious (chance) seedlings.
- 6) "Self" for seedlings resulting from intended self pollination of the seed parent.
- 7) Remove current incorrect parentage.

PATENT(S)

Enter for each patent or like government protection:

Country

Patent Number & Date:

Application Number and Date:

Note text.

NOTES

Enter any descriptive text applicable to the rose such as:

Identification questions.

Differing views about parentage.

Performance in a different climate (include USDA and/or Sunset zone).

General area where a mystery rose was found.

Stories about the rose or its namesakes

For an extensive discussion, enter this type of information under the "Q&C" (Questions & Comments) tab and put a pointer, "See Q&A for xxx" in notes.

There is an "Admin" area available to those with editing privileges that is not displayed to the public. This is an ideal location to record the exact location of a found rose to assist in future resolution of multiple study names.
